**UK-Senegal Investment Forum
17th June 2013**

Toro Gold was a proud sponsor of the second UK-Senegal Investment Forum which took place in London on 17th June 2013. With over 300 participants, the conference highlighted the growing interest in trade and investment into Senegal and the attendance of the Presidential Delegation and Government officials confirmed the commitment towards improving the business environment of the country. The President himself reiterated his strong commitment towards good governance and transparency.

The Toro team was delighted to have the opportunity to present the Company's activities to H.E. Macky Sall, President of the Republic of Senegal in a private meeting. The President, along with the Mining Minister Aly Ngouille Ndiaye expressed keen interest and support towards our projects and requested to visit the Mako Project Site towards the end of the year.

" We are delighted with the invaluable support received from the Government of Senegal since the early stages of our exploration activities and believe that building a strong relationship with the Government and local communities is key towards Toro Gold's exploration success in Senegal, and more specifically the development of our Mako Project. We very much look forward to welcoming H.E. Macky Sall and his Delegation at the Mako Project site this year." said Martin Horgan, CEO of Toro Gold.
